

Growing to Serve

We have been working the last year to take into account your comments; we have secured the services of a capital campaign company, and are ready now to move forward.

Beginning January 17th, we will have a series of focus group sessions. The purpose of these sessions is to **update you** on the current building planning, **get your feedback**, and prepare for a **church-wide** vote in mid-February on this vision for enlarging and renovating St. Luke's current and future operation on Ella Taylor Road.

Our legacy moving forward should be to invest in the future of the church, our families, our community, and to continue to broaden our support to the United Methodist Church's worldwide mission. This is an exciting time – be a part of St. Luke's vision of the future.

Growing to Serve
